

## ECOLOGICAL TRENDS ALLIANCE

### OUR MISSION

To secure solutions to biodiversity and development challenges through providing biologically diverse and proven alternatives.

### OUR VISION

Is 'greening' development through knowledge and experience-based options for humanity

### OUR GOAL

Is to enhance ecological conservation knowledge for the benefit of the people to enable sustainable national development.

### OUR OBJECTIVES

1. To inform development through evidence based research that sustains ecosystem services
2. To provide training and build capacity in ecology, development and livelihoods to improve skills, knowledge, practice and behaviour / attitude
3. To promote community Livelihoods through wise use programs that address wildlife-human-interface, food insecurity and poverty.
4. To promote the conservation of sensitive receptors in or outside their natural environment

With the support of IUCN Save Our Species, co-funded by the European Union
